Portfolio: https://thomas-stimac-react-portfolio.herokuapp.com/

SUMMARY

- Back-end developer with experience designing and building applications using best practices in UX, technology, architecture, and process.
- Detail-oriented and analytical; with ability to translate mockups into high-quality components and interfaces.
- Valuable collaborator and team member who communicates status updates directly and effectively with empathy.
- Self-starter with experience working with independence on software projects to build features end to end.
- Creative, flexible, and innovative problem solver; can break down project work into smaller deliverable features.

TECHNICAL SKILLS

- React (including hooks-based/class-based and state management), HTML, CSS, Javascript, CSS-in-JS styling.
- Node.JS, SQL, MySQL, JQuery, Bootstrap, Express, Firebase, MongoDB, Handelbars.js, Heroku.
- Experience establishing API specifications and using browser APIs and NPM tools.
- Learning C# and React Native.

SELECTED PROJECTS

Neon Rain | https://github.com/Stimoe/neon-3 | https://neon-3-1.herokuapp.com
- Users fight through a dungeon where they fight enemies and build a deck.
- Developed game logic; debugged and solved coding conflicts, such as errors in game card mechanics.
- Created a MongoDB server that stores user progress and resets status. Used Bcrypt to provide OAuth services.
- Programs used: Bcrypt, Dotenv, Express, Express-Sessions, Bootstrap, Ajax, JQuery, and React.

The Little Library | github.com/Stimoe/LittleLibrary | little-library-app.herokuapp.com
- Provides location information for the little libraries in Seattle neighborhoods using Google Maps API.
- Allows users to add books, check out books, and post and share reviews using Axios to connect to the database.
- Built MySQL databases to enable RESTful API data calls to and from the server.
- Programs used: Bcrypt, Dotenv, Express, Express-Sessions, Moment, MySQL, and Sequelize.

EDUCATION

Full Stack Web Development Certificate: University of Washington, graduated November 2019. 12-week intensive program focused on gaining technical programming skills.

Bachelor of Arts, Economics and Political Science: Western Washington University, graduated June 2011.

EXPERIENCE

Assistant Warehouse Manager   January 2014 to Present

Seattle Marine and Fishing Supply   Seattle, WA
- Increased company efficiency and accuracy to above 98% for shipping over 50,000 different products.
- Managed up to 20 people; coordinated shipping thousands of products per day in a fast-paced environment.
